PROFILE

Results-driven Front-End Web Developer with 1 year experience specializing in creating dynamic and user-friendly web applications. Proficient in the core front-end technologies including HTML, CSS, JavaScript, jQuery, and Bootstrap. Additionally, well-versed in back-end development with expertise in AJAX, MySQL, and java. Seeking new opportunities to leverage my skills and creativity in crafting seamless and engaging web experiences. Eager to contribute my proficiency in web development, backed by hands-on experience and a passion for innovation.
